

**General Course Settings:** This course is set up so that information is accessed either by clicking on the name in Topic 1 or by using the Navigation Menu. The Additional Resources topic is hidden so that only the teacher can see it.

**Digital Parking Lot:** You will need to create your own account and screen at wiffiti.com . When you create your account and appropriate screen, you will need to edit the Digital Parking Lot web page. Put your new screen number in the text in place of the Xs. Then take the embed code from your newly created screen and replace the HTML code currently on the page.

**Digital Citizenship Introduction:** This presentation connects the terms "citizen" and "technology" to help students understand how the term Digital Citizenship was coined. This presentation is the basis for the model Cornell Notes page in the Cornell Notes presentation.

If you are unable to upload the course with the video embedded, you will find it here:

<http://youtu.be/RfGkmzhZCIA>

**Cornell Notes:** Students should take notes from each of the presentations to ensure knowledge of the 9 Elements of Digital Citizenship, which they can then use to create their final projects.

If you are unable to upload the course with the video embedded, you will find it here:

[http://youtu.be/8t\\_Vzeq5L3g](http://youtu.be/8t_Vzeq5L3g)

**Etiquette:** Students should take the Brain Pop Quiz to see what they already know. Then they watch the presentation and take notes in the Cornell Notes packet. Next, they should watch the cyberbullying video and complete the journal response.

If you are unable to upload the course with the video embedded, you will find it here:

<http://youtu.be/bLNZkU1tuU8>

**Communication:** Students should watch the video and take notes in their Cornell Notes packets.

If you are unable to upload the course with the video embedded, you will find it here:

<http://youtu.be/4lZPP8ePJbU>

**Literacy:** Students should watch the video and take notes in their Cornell Notes packets. Next, they should view the Prezi to learn the top 10 Media Literacy terms. Each term has a definition and a video commercial that illustrates the term—Note that the commercials may take some time to load in the browser window. Students should do the journal assignment that follows the Prezi. Finally, students should view the Evaluating Web Sites page and do the corresponding work.

If you are unable to upload the course with the video embedded, you will find it here:

<http://youtu.be/KsnN3DJQ3Jg>

**Security and Health & Wellness:** Students should watch the video and take notes in their Cornell Notes packets. Students should then have a conversation with their families before they complete the journal response.

If you are unable to upload the course with the video embedded, you will find it here:

**Rights & Responsibility:** Students should watch the video and take notes in their Cornell Notes packets.

If you are unable to upload the course with the video embedded, you will find it here:

<http://youtu.be/RRgnSnAXyc8>

**Access, Commerce, and Law:** Students should watch the video and take notes in their Cornell Notes packets.

If you are unable to upload the course with the video embedded, you will find it here:

<http://youtu.be/CYRUUxsH7Qk>

**Final Project:** The final project and rubric are detailed on a web page. On that same page is the link to the assignment where students should upload their work. If they do a power point, they can just upload that file directly; however, students who do Glogs, Prezis, Animotos, videos or other internet based work, they will need to make sure their link is public and paste that link into a Word document. They would then upload that Word document to the assignment.

If you are unable to upload the course with the Glog embedded, you will find it here:

<http://campeak.edu.glogster.com/9-planets/>

If you are unable to upload the course with the Power Point video embedded, you will find it here:
